

*Healthy communities advocate, consultant on bicycle and pedestrian plans, author, Tufts professor and television personality – **Mark Fenton** will present insights gained on a grueling 200-mile hike along the John Muir Trail. Fenton will also provide a ‘blueprint’ for active communities, including parks and trails, safer streets and sidewalks, and other infrastructure and public policy initiatives to encourage more walking, bicycling and transit use. His engaging style and stunning images of the Sierra Nevada high country make for an entertaining and informative presentation.*
